

Måløy
Havfiskefestival

BOAT CHAMPIONSHIP

30.07.-06.08.2017

MÅLØY - NORWAY

We wish you all welcome to Maaloy. We are ready for the championship

NORWAY

Måløy
Havfiskefestival

Norwegian
Sea

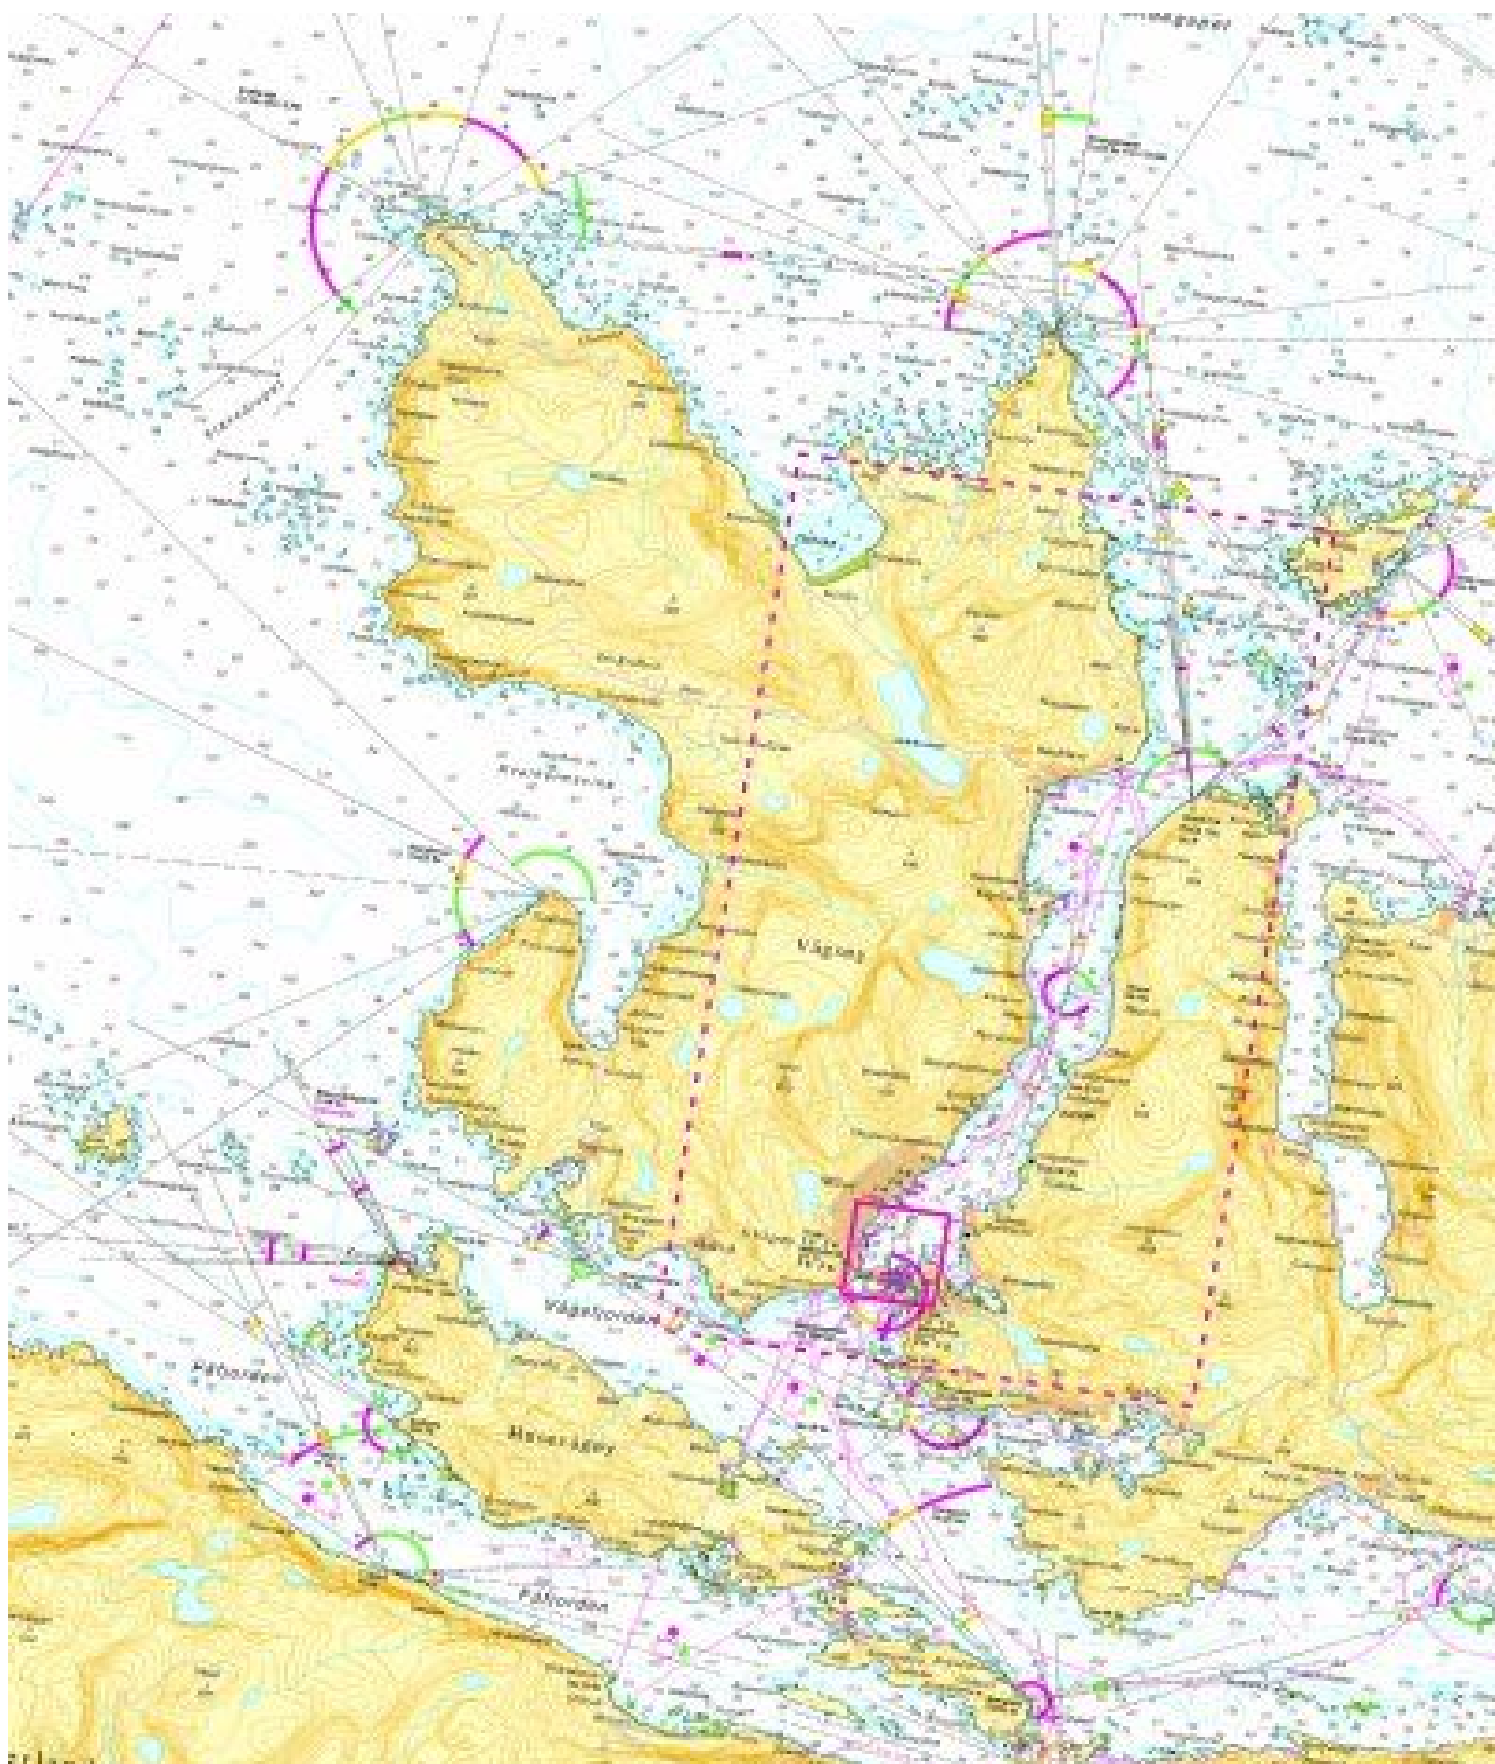

Måløy is located on west coast of Norway on 62 degrees north, near by the Stadt peninsula. The ocean outside Maloy have a lot of very good fishinggrounds. A variety of species spawn in the area during end of winter, like herring and cod. The gulfstream with higher temperature, give good contditon for booming of algae and become perfect food for the growing fish. Fishing, fishfarming, fishindustry, fishinggear and maritime busines like shiprepair and shipbuilding are still very important for region.

Måløy Havfiskefestival

havfiskefestival.no

The fjord just a few minutes south of Maløy have depth down to 300 meters and you can find skerries and shallow fishingground miles outside the coast. The main fishing during the competition will be from 30 to 120 meters.

If you want to look into more detailed map you can find it on:

<https://norgeskart.no>

The skippers of the vessels are mainly skilled local fishermen and they know a lot of good fishingspots. The fishmasters on every vessels will get a map where good fishinggrounds for different species is marked.

Every morning we make the decision if the fishing will be in open or sheltered sea. Due to on board security, we prefer that all fishmasters will be Norwegian to avoid any problem with communication, if a critical situation should appear.

99 fishermen from 14 sections pr. 01.04.2017

01	Norway	30 (+2?)

Boat draw Maløy 22.april

Together with computercompany Local Host, we have developed a new database for the championship. Drawing will be done by computer and results of drawing will be distributed to all participating sections. If sections have not appointed substitutes for the National Team (5+1), then they must do this ASAP. Requests on safety positions and fishing together will be taken care of.

If there are persons on same section team that wish to be on the same vessel (Gibraltar), can EFSA Norway/organizing committee allow this?

The program will be used for registration of fishpoints/weights and provide daily result of the competition. Daily results will be displayed at Hotel, Pier and website.

Fishing

The vessel will be moored at pier by town square. Map over vessels will be displayed at the pier. Meetings with boatskippers and Fishingmasters will be held in Fishermens shack in Town Square. When vessel leave port they have maximum 1,5 hours to find fishground. They can choose to search longer before start, but then they will use of efficient fishingtime. Fishing is not Catch and Realease. 1. Fish must be gaffed correct in head. Release hook from fish and place fish in your box. 3. Cut throat on fish for bleeding before tackle can be set out again.

GALA DINNER

Will be in the brand new Parken Kulturhus in Raudeberg, 5 km from Maloy.
Opened March 2017. A kitchen of very high standard is located in the same building and they will serve delicious courses. Abt 250 persons can be seated on round tables.
There will be local bustransport from Maloy to Raudeberg and returntrip in the night.
Schedule will be announced at hotel and to every participant.
