# European Boat and Line Class Championships 2019

9th - 13th September 2019  
Weymouth, England

# Welcome to Weymouth and Portland

*It is with great pleasure that I welcome all participating nations to the Jurassic Coastline of Weymouth & Portland, for the 2019 European Federation of Sea Angling (EFSA) Championships.*

*I am so proud that once again we are to play host after the successful previous championships. We recognise that it is a high-profile and prestigious event, and we feel confident that you will once again enjoy your visit to the Borough of Weymouth & Portland.*

*It is well known that the waters off Dorset boast some of the best sea fishing in England, and combining that with the expertise of our local skippers, I feel sure that you will enjoy a fruitful and competitive week's angling.*

*During your stay in our Borough, I hope that you, your families and friends will find the time to explore the surrounding area, including the spectacular Jurassic coastline, a designated World Heritage Site – along with the unique island of Portland, as well as the traditional treats and hospitality on offer in and around Weymouth itself.*

*However you spend your time with us, I am confident that you will be met with a warm Dorset welcome, and you will leave us with many fond memories of your visit. Enjoy your stay, have a very successful championship and come back soon.*

*Cllr Kevin Brookes  
Mayor of Weymouth & Portland  
2017-2018*

# EFSA Chairman Address

*EFSA England is once again proud to be hosting the European Boat and Line Championships 2019 from the port of Weymouth on the south coast of England. This is the fifth time the Championships have been held in Weymouth and I am sure that for those who have been here previously this will be a welcome return, to all those who have not had the pleasure of visiting you can be assured of a wonderful, memorable visit to this popular resort.*

*It is widely known that the Charter fleet in Weymouth have some of the most experienced skippers and modern, well equipped boats in England and they are all extremely pleased that EFSA has once again chosen their port to hold The Championships from and I know they are eager to please all the anglers. The Weymouth and Portland Borough Council have welcomed the return of EFSA to Weymouth and they are certain that all the participating anglers and their companions will enjoy not only the fishing but also the hospitality of the town.*

*As Chairman of EFSA England, I and the Organising Committee would like to therefore extend an invitation to all anglers and their family and friends to participate in the 2019 European Boat and Line Championships in Weymouth*

*where we can assure you all a memorable visit. There is always the opportunity to catch a fish of a lifetime and where you can be assured of a hearty welcome.*

*I look forward to meeting you all in Weymouth and offer you a warm and sincere welcome to old and new EFSA members and families.*

*Neil Bryant – Chairman EFSA England*

*Dear EFSA Friends and Family*

*In September 9th to 13th 2019 we are returning to Weymouth for our 2019 European Boat and Line Championships. Weymouth is one of our favourite places and we are visiting for the 5th time having fished here five years ago in the September of 2014. We are pleased that we have the first opportunity to enjoy a new format of 2 days Line Class fishing and 3 days normal Boat Competition with all 5 days score counting towards the 2019 Boat Championship and the coveted Gold Pin!*

*Weymouth is situated in a sheltered bay at the mouth of the River Wey on the English Channel coast. The town is 13 kilometres south of Dorchester and 8 kilometres north of the Isle of Portland with a population of approximately 52,000 and is the third largest settlement in Dorset.*

*Weymouth Town developed from the mid 12th Century onwards and by 1252 was already established as a seaport with fishing noted as one of its earliest occupations.*

*Weymouth is currently regarded as the UK's premier port containing the county's largest charter angling fleet and the latest modern vessels to fish from which are run by highly experienced and motivated skippers. The Weymouth/Portland area offers a wide range of fishing options and many different species to fish for and, most importantly, can provide sheltered fishing conditions no matter what the weather. September is the best month for the inshore fishing with bream being a main target species on the reefs along with rays and turbot/brill on the various banks.*

*Weymouth boasts a picturesque harbour, beautiful coastal scenery, many restaurants and pubs and a good variety of evening activities along with a vibrant live music scene to keep us entertained.*

*I and EFSA wish you all great success and enjoyment during the EFSA European Boat and Line Championships in September 2019.*

*Horst Schneider – EFSA Chairman*

The charm and character of the Crown Hotel lies in the warm and friendly atmosphere which always prevails. The management takes a special interest in making sure your stay is a total success, whether it be for business or pleasure.

The hotel is located in an extremely favourable position at the top of Weymouth's town centre, next to the Town Bridge overlooking the historic fishing harbour, and just a few minutes' walk from the picturesque Brewer's Quay. Weymouth's beautiful sandy beach and the ferry service to the Channel Islands are less than 5 minutes' walk from the hotel.

Hotel facilities include a first floor residents' lounge, The Vaults Bar and Restaurant and a residents' bar where there is nightly entertainment during the season. There is also a passenger lift which serves all floors.

### ACCOMMODATION

All 86 non-smoking bedrooms have been recently and carefully refurbished and are now decorated to a very high standard for your comfort. Each bedroom offers an en-suite bathroom, colour television, tea and coffee making facilities and internal telephone.

### FOOD & DRINK

The well appointed dining room on the ground floor aims to delight with its carefully balanced menus and reasonably priced wines. We are renowned for our standard and choice of traditional home cooked British dishes.

If you require a practice boat prior to the Championships please 'e' mail Weymouth Angling Centre on [wac@weymouthangling.com](mailto:wac@weymouthangling.com)

# Rules for the EFSA Boat & Line Championships

## General Rules

1. The Championships will be fished to the EFSA rules governing at the time of the Championships unless otherwise stated.
2. The Headquarters for the Championships will be the Crown Hotel.
3. A husband and wife, parent and child may apply to be drawn on the same boat but a request to do so must be clearly stated on the entry form.
4. A fishing Captain and Steward will be appointed for each boat and their duties will involve
  - a. Liaison with the boat skipper.
  - b. Ensuring that the Championships Rules are adhered to.
  - c. Observance of start and finish times.
  - d. To ensure that the boat sheet is completed, signed and returned to the weigh station.
  - e. To assist the skipper with measuring fish if required.
  - f. To aid with species identification.
5. The fishing areas each day will be designated by the Organising Committee.
6. If, in the opinion of the Organising Committee, the weather is unfit to allow the boats to reach the normal fishing grounds, the Committee has the power to abandon the day's fishing or to limit the boats to a safe area. Their decision shall be final.
7. The Boat and Line Championships will be fished to a points system. Illustrations of both points system are included within the brochure.
8. Each competitor is responsible for checking that the fish caught has been registered with the boat skipper or appointed Steward. It is their duty to make sure the skipper acknowledges their catch every time a fish is caught. Anglers must not commence fishing until their fish have been recorded and returned to the water. All Boat Captains will complete the fish record sheets for the anglers on the boat and present it to the Score Marshall upon landing at the end of each day. The Boat Captain and Steward will make all necessary score calculations and agree the totalled score with each individual competitor. Once agreed, the competitor shall sign the score as the accepted calculation. No checking of this calculation will be made once the score sheet is presented ashore and the signed-for score will be that used for the percentage calculations.
9. Bait will be supplied to each competitor and must not be shared with any other competitor. The only other bait allowed will be that caught by the competitor during that day. Bait may not be retained at the end of each day. Any bait caught prior to 'lines down' at the start of each day must be pooled and shared equally amongst the competitors on board. If there is an abundance of caught bait (ie Mackerel) it may be acceptable not to share out but to take as required as long as this is acceptable by the whole crew.
10. Artificial lures are permitted.
11. The daily fishing results will be posted each day at HQ.
12. All anglers must assemble at the designated points each day by 0730 latest. Boats will commence leaving the harbour at 0800 and will not wait for latecomers. Fishing time will be 6 hours from first lines down. All boats must return to harbour by 1700 unless delayed by unavoidable circumstances (i.e. mechanical breakdown) whereupon the skipper shall inform the Organising Committee by whatever means available.
13. Any competitor wishing to lodge a protest must adopt the following procedure:
  - a. Protests relating to the day's fishing must be submitted in writing to the Chairman of the Protest Committee before 1900 that day.
  - b. Protests relating to the results must be submitted in writing to the Chairman of the Protest Committee before 0700 the following day.Details of the composition of the Protest Committee will be issued to each competitor with their Registration pack.
14. Wire line is prohibited.
15. Competitors may only have one rod fitted with terminal tackle at any one time. A second rod may be assembled but without terminal tackle attached.
16. Anglers may only receive assistance to net or gaff a fish.

17. Conger Eels, Tope (Sharks), Rays and any fish over 5lb will be released at the side of the boat. The trace must be touched by hand for the fish to count. The trace constitutes the line attached directly to the hook.
18. Foul hooked fish - only fish hooked in the mouth or forward of the gill cover count. Fish must be returned to the water immediately, unless being retained then it is to be killed and its tail removed.
19. Weevers and mini-species are not eligible. Only exceptions are 'poor cod' which are included with pouting and 'wrasse all' where species is identified as a mini species. In all cases, 'poor cod' and 'wrasse other' (mini species) must meet the 20cm minimum size limit.
20. Bait additives are not permitted.
21. Casting from a boat will only be permitted using an underarm or 'uptide' method. In the interests of safety, a suitable shock leader (min 30lb B.S.) must be attached for casting leads in excess of 4oz (110g). On commencement of cast, the angler shall inform all others on board of the intention to cast. At no time during the cast shall the weight or terminal tackle be within the confines of the boat or cross the boat during the cast.
22. A fish caught and recorded for points may also be kept for bait but must be killed and have its tail removed immediately.
23. All fish are to be returned to the water alive immediately after recording, unless required for bait or weighing ashore.
24. For these Championships, minimum sizes as per the score sheets will apply.
25. Correct dress will be worn at all official functions. These include the AGM, the welcome reception party, the prize giving ceremony and the gala dinner. Correct dress is considered to be International Uniform or smart casual wear with tie. No denims, jeans, tee-shirts or trainers. Competitors attending the prize giving in improper dress will forfeit their right to have their prize presented in public.

## Boat Championship Rules

1. A maximum of two hooks may be used. A double or treble may only be used unbaited and attached to a pirk only.
2. A maximum of ten fish of each species shown on the score sheet may be recorded. The first five recorded will receive the full species points. The remainder will only receive one point per fish.
3. The angler(s) recording the most points will be declared the boat winner and be credited with 100%. All other anglers on the boat will have their scores expressed as a percentage of the boat winning points.
4. In the event of a 'tie' the competitor with the greatest number of fish recorded over the three days will prevail. If there is still a 'tie' then the competitor with the greatest number of Species will prevail
5. Boats may fish at anchor or on the drift.

## Line Class Championship Rules

1. Anglers must only use the Braid line provided by the organisers. The Braid will be 35lb.
2. Anglers must supply a sample of the line from the reel in use when requested by the Organisers.
3. A competitor who has a big fish hooked, has right of way in the boat. If requested, other competitors must remove their lines from the water whilst the fish is being played.
4. A maximum of one single hook is permitted. Doubles, trebles, leadheads and pirks are barred.
5. The length of the leader used shall not exceed 4.5 metres and the length of the leader and double line shall not exceed 6 metres.
6. Only the fish listed on the scoresheet will count.
7. The Line Class Championship winner will be the angler with the highest percentage score over the two days of the Line Class Championship. (Where the percentage score is the same the winner will be the competitor with the fewest number of fish over the two days. If there is still a 'tie' then the competitor with the greatest number of Species over the two days will prevail).
8. All boats will fish at the anchor.
9. In the event of bad weather, the 'General' Championship rules and scoring system will be applied, and two hooks will be permitted
10. Trace line has to be a minimum 90cm from Hook to first swivel below boom.

## 2019 Boat & Line Championship

The overall winner of the 2019 Boat and Line Class Championship will be the competitor with the highest accumulated score over all five days of the championship.

# The Boat & Line Class Championships . . . . . Points System

## LINE CLASS CHAMPIONSHIP – 2 days (Monday – Tuesday)

All Fishing will be at anchor.

There will be a minimum size for relevant fish.

Only fish over 5lb count apart from Conger, Rays and Tope which can be any size to score points.

All Congers, Rays and Tope can be released at the side of the boat once the trace has been touched. All other fish must be boated. No limits on number of fish caught.

Species	Size Limit	Points per Fish	No. of Fish	Total Points
CONGER	All sizes count	15		
RAYS	All sizes count	10		
TOPE	All sizes count	5		
ALL OTHER FISH	5lb and above	5		
Total Points				
Number of Fish				

The Competitor on each Boat with the highest number of points will be the Boat winner and awarded 100%. All other Competitors on the boat will receive a percentage score based on the total points of their fish expressed as a percentage of the boat winners' total points.

The overall Line Class Championship winner will then be the competitor with the highest percentage over the two days of the Line Championship. Where the percentage score is the same the winner will be the competitor with the fewest number of fish over the two days. If there is still a 'tie' then the competitor with the greatest number of Species over the two days will prevail. The same principal will apply in determining the individual day winners.

(PLEASE READ THE ABOVE IN CONJUNCTION WITH THE MAIN CHAMPIONSHIPS RULES)

## BOAT CHAMPIONSHIP – 3 days (Wednesday – Friday)

The minimum size for all Species will be 20 centimetres (cm)

'Fish Points' will be awarded for each species listed (as shown).

'Species Points' will also be awarded (3 points per Species).

Any fish not listed will be classed as 'Unspecified' and all such fish will be treated as one species on the score sheet.

Each Competitor will be awarded full 'Fish Points' for the first five fish of each species, and one point per fish for the next five fish of that species. A maximum of ten fish only of any one species will count.

A Competitors total points score will be arrived at by adding the 'Fish Points' to the 'Species Points'. The highest points scoring Competitor on each boat will then be awarded 100%. The other Competitors on each boat will be awarded a percentage score based on their points as a percentage of the boat winner.

## 2019 Boat & Line Champion

The overall winner of the 2019 Boat and Line Class Championships will be the competitor with the highest accumulated result over all five days of the Championship

The daily boat percentages for each Competitor will be added up for the five days to arrive at the overall winner and other placings. In the event of a 'tie', the Competitor with the greatest number of fish recorded over the five days will prevail. If there is still a 'tie' then the Competitor with the greatest number of species over the five days will prevail.

(PLEASE READ THE ABOVE IN CONJUNCTION WITH THE MAIN CHAMPIONSHIPS RULES)

Juniors	-	1st - 3rd
Life Members	-	1st - 3rd
Open 2 Man Teams	-	1st - 3rd
Open 4 Man Teams	-	1st - 3rd

# Deep Sea Angling from Weymouth

The deep sea angling charter fleet operating from Weymouth is one of the largest fleets in the country.

The port has received rave reviews for the quality and diverse range of fish that can be caught all year round and is now the number one port in the UK.

The skippers from several of the charter boats have won awards for their expertise and customer care. Features on the fishing and charter fleet appear regularly in the national angling press.

Such is the consistency of the port, angling personalities have hired skippers and their boats to record angling footage for television and video.

With boat angling from Weymouth you will experience catching fish on the famous Shambles, Kidney and Adamant Banks, deep water reefs or fish one of the many wrecks that lie just off the coast.

Even when the weather is poor there is always somewhere to fish within the sheltered coastline. The annual five day WIBAC Boat Championships held at Weymouth regularly records over twenty different species of fish.

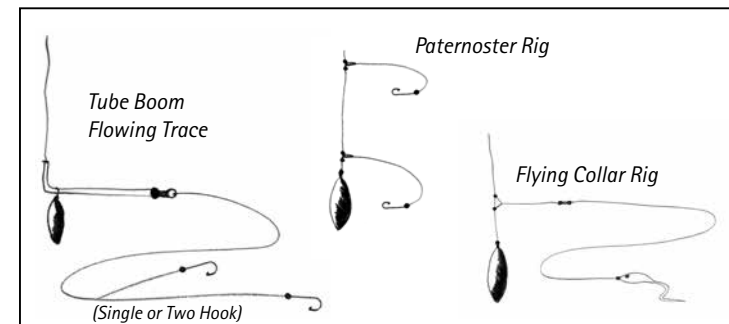

The species you are very likely to catch are:

Black Bream, Bullhuss, Cod, Conger, Dogfish, Garfish, Mackerel, Pollack, Scad, Smoothhound, Ballan Wrasse, and Pouting.

Other species that can be caught are Gurnard, Triggerfish, Ling, Plaice, Blonde Ray, Thornback Ray, Undulate Ray, Tope, Whiting and Cuckoo Wrasse.

There are of course many other species that may be caught at this time of year, with all the summer species and winter species being found in the seas off Weymouth.

## Rigs (Single hook rigs – Line Class / Maximum 2 hooks – Boat Championship)

Most fish can be caught by keeping your end tackle simple. The most popular method locally is using tube booms with a flowing trace. When angling for predatory fish like Bass, Pollack, Bream etc., a trace of 9.1Kg breaking strain about 2 to 2.5 metres long is ideal.

General bottom fishing, use a trace of about 11.4Kg breaking strain about 1 metre long.

When targeting Rays, a trace of about 50Kg breaking strain about 2 metres long is ideal.

Fishing may be both at anchor or on the drift.

Weymouth Angling Centre for all your tackle needs for the Championships
